Juigistyle Plutonium Staff Staff I don't know much myself about GSC, but I know that Jbleezy's Reimagined mod has the PaP doors permanently opened as long as the power is turned on. I suppose you could look at the code for that function and make one of your own, or just use it Want to get the best of the best weapons? Ready to decimate the hordes of living dead? Then pretty much any weapon will do... as long as it's Pack-A-Punched. Contents 1 Steps 2 Tips 3 Warnings 4 Things You'll Need 5 Related Articles Build the Turbine in the bus station. Collect all the pieces and assemble them at the workbench. You will need at least one (maybe two. Have another player grab one just in case). The battery will be near the pay phone. The mannequin will be standing next to the station map. The fan will be on one of the waiting seats. Grab it and leave. Either ride the bus to the power station, or teleport there. Open the door to the power station (costs 750 points). Turn on the power (you can skip this). If you turned on the power, place the Turbine in the front of the hallway you first jump down. Leave and go straight to the town. If you didn't turn the power on, don't go down. Place the Turbine at the front of the door leading down, as close as you can get it. Go to town immediately afterwards. Open the bank in the town. After it is open, open the safe. If the Turbine is still on, the vault will be open. Find the parts. The board, the slot, and the battery. They are scattered inside the vault. Assemble the parts at the workbench in the back of the vault. Your end result will be Pack-A-Punch. Pack-A-Punch your weapon(s) (costs 5000 points). The power will be amplified, the name will change, and it will be heavily modified. There are different results for different weapons. You can Pack-A-Punch your weapon(s) more than once. Have one player stay behind at the power station and guard the Turbine. You can stay in the opening of the vault (as long as you are not on the stairs) without zombies coming from below. You can re-open the vault any time you want with another Turbine. Open the bank and vault by blowing them open with a grenade. To save time, open the door to the power station. Instead of jumping down, place the Turbine as close as you can to the open door. The power of the Turbine will still affect the station and open the vault. You cannot carry more than one part. If the Turbine breaks with no one inside, the vault will close. Xbox 360/PS3 TV Controller Internet Mic Black Ops 2 Outside of my day job as a project manager for a construction company, I am an avid gamer with a great passion for "Call of Duty."The Galvaknuckles have quickly become my favorite weapon, despite their high cost. So, after I heard the rumor about upgrading them, I was both intrigued and skeptical. Rumors such as this are commonly spread as a hoax. I didn't get my hopes up. Even if it could be done, it would be just another glitch, and I don't like using glitches. However, I had to try it once in order to see if it actually worked.I was surprised when it actually did work. But I was even more surprised when I saw that it had a new name. This has convinced me that it is not a glitch, but instead was intentionally added to the game. This weapon is hard to acquire and has not been explored much. However, it was put in the game for a reason, and I don't think anyone has figured out everything that it can do yet. Maybe you can unlock the secrets it harbors. Follow these steps to get your very own upgraded knuckles.Before You StartMake Sure you:Keep your M1911 Do not pick up any other guns Do not have anything in the Refrigerator You Need to Know How To:Build a Turbine Turn on the Power Get Galvaknuckles Open and Build Pack-A-Punch Put a weapon in the Refrigerator Screenshot: Call of Duty Black Ops 2, ZombiesStep 1: Buy the GalvaknucklesYou can find the Galvaknuckles on top of the diner. You will need the hatch in order to access the knuckles.Screenshot: Call of Duty Black Ops 2, ZombiesStep 2: Upgrade the M1911In order to complete this step, you will need to build the turbine first. Next you will need to open the Pack-A-Punch room and build the Pack-A-Punch machine.Screenshot: Call of Duty Black Ops 2, ZombiesStep 3: Put Mustang and Sally in the RefrigeratorYour M1911 will become Mustang and Sally. After you put them away, you should not be holding any guns. Do not pick up a gun or this will not work.Screenshot: Call of Duty Black Ops 2, ZombiesStep 4: Upgrade the GalvaknucklesThe option to Pack-A-Punch a weapon appears on the screen even though you are not holding a gun. If you press the indicated buton, your Galvaknuckles will go into the machine and come out upgraded.Now you will be able to punch by pushing the trigger button. Your punch will be faster than it previously was. However, you will no longer have the ability to sprint. If you pick up a gun, you will be able to sprint again, but you will lose your quick punch.Please Note: I tried to Pack-A-Punch these weapons a second time. It seemed to work, but after I took the weapon, I could no longer punch. The other player in the game killed the last zombie, and I started the round without the ability to sprint, without a gun, and without the ability to Melee. I had to leave town to get a gun, but died in the fog since I could not punch the fog creature off my head.Related Links© 2013 Edward D. I haven't tried it. But based upon the other comments about it doesn't work on Xbox(I have xbox)I'm not trying it. It looks fake and I agree that the pack a punch(ed) name is kind of stupid. "ZOMBIE TAZER KNUCKLES" is probably what the coding refers to the Galvaknuckles as. The pack-a-Punch also probably has a coding that increases the weapons stuff by a specific % if it doesn't have a specific weapon that it turns into after upgrading.Zombiekilla on December 24, 2013:Imana try this cz am curious despite the comments but I wonder if this works for the map Buried since you have basically the same basics to do itwhatmqn on October 19, 2013:to those who say it is wrong that he cannot do it on round 1 , WRONG! he uses money he put in the bank to get all that stuffEdward D. Saterstad (author) from PA on July 11, 2013:AnnoyingOn3, I have better things to do than troll. I would agree with Idiots (the person that commented above you) that this was a glitch, since it was patched and there was no special abilities (punching faster the exception) Upgrading the Galvaknuckles was just something that was fun to do, like an Easter Egg. It didn't do much before, and does nothing now, because it is patched.AnnoyingOn3 on July 10, 2013:The devs wouldn't name them such a dumb name and the underscores would NEVER be added. The devs at Treyarch always make sure to give their pack-a-punch'd weapons fun or creative names. Please stop making a fool of yourself in some idiotic attempt to troll stupid kids.Idiots on June 25, 2013:These are not "Pack-a-punched" Galvaknuckles. There was a glitch whereby if you purchased Galvaknuckles, whilst having no other weapons equipped, the Galvaknuckles had a different name.
